

Western Enviro Solutions

<https://www.westernenvirosolutions.net/>

We are one of the most reputed organization in India providing complete environmental solutions. The organization is engaged in manufacturing water & waste water treatment plants, chemicals and air and water treatment services.

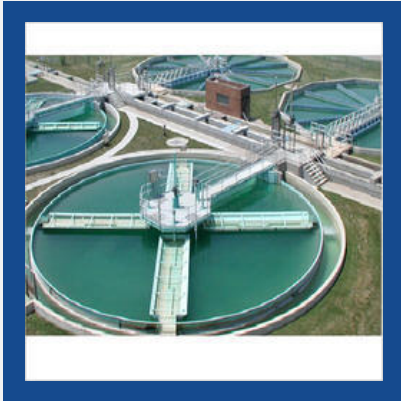

About Us

Established in the year 2007, Western Enviro Solutions is one of the most distinguished Environmental Solution providers in India. We are engaged in manufacturing **Water Treatment Plants, Sewage Treatment Plant and Chemicals** for controlling pollution in industries like Food and Beverages, Textile and Paper. In addition, we also offer Water Treatment Services and Air Monitoring Services to our clients. Our motto is to develop effective techniques and methodologies for controlling water and air pollution levels. The environment has undergone substantial degradation in the last few decades, mainly because of rapid industrialization. Industries are the main source of harmful emissions that pollute water bodies, underground water table and the surrounding atmosphere. Our Water Treatment Plants and Air Monitoring Services are meant to check the ever rising pollution levels and make the world pollution free. Under the able guidance of our mentor, Mr. Harish Neknarayan, we have carved a niche in the industry within a short time period. Our team of environmental experts and engineers fabricates world-class Water Treatment Plants and offers best quality solutions at industry leading prices. Undertaken Successful Erection And Commissioning Of More Than 300 Projects in the Five Years.
